

## SCHOOL

- I. **This year you are attending the second grade of Senior High School and you have a weekly timetable with different subjects. Find out how these subjects are called in English and give a brief description of each one of them.**

*Example:* Αγγλικά – English, 2 hours per week

We study various units with cultural interest in the English language and we try to enrich our vocabulary and improve our writing skills.

- II. **If you had the opportunity to introduce new subjects at school, which ones would they be? Write about:**

- The name of the subject and its content
- The teaching hours
- The aim of the subject
- The methods for its teaching
- The potential difficulties
- Any further comments

\*You can write about ANY subject that comes to your mind, regardless of how realistic it is or not!
